

Archaeological Review from Cambridge Image Regulations

Updated: Jan 2013

Please submit only photographs that are at least 5 inches wide (landscape format) or 3 inches wide (portrait format) and at least 400 dpi. Use .tiff format and CMYK colour whenever possible.

If submitting a line drawing or a scan of a pen-and-ink drawing, the image must be 1200 dpi. Please avoid embedding the images in a word document. All images must be referenced in the text as "(fig. 1)."

Also remember to provide figure captions and copyright information. Please make absolutely sure that you have obtained permission from respective institutions to use and reproduce images. Many larger museums, for example, have strict copyright regulations regarding images of objects from their collections taken during research visits.
